References[] The latest version of tModLoader is 0.11.8.7 and works with Terraria 1.3.5.3, while support for Terraria 1.4 is in progress. Mods are not developed by Re-Logic. As mods are not officially tested or endorsed, they are not guaranteed to be reliable. Its goal is to be an unofficial DLC with the same design elements as Vanilla Terraria, and features three fully developed classes (Bard, Healer and Thrower), a new biome in the Deep Water, a host of exciting bosses, and over 2200 new items found throughout the game. Terraria Custom Content Loader allows the use of custom sprites, fonts, music and sounds and allows the use of multiple texture packs at the same time. It is officially endorsed by Re-Logic and available through Steam. Adds multiple items, bosses, 2 biomes and includes mechanics such as photography, armor prefixes, new melee weapon subclasses (heavy swords and rackets) and others. See The Official Terraria Mods Wiki for information on current mods available for Terraria. Adds a variety of many items, as well as a total of six bosses that feature a significant deviation from Terraria's normal combat system. Adds 27 new bosses, 12 new minibosses, and a "Superboss." The main goal of the mod is to provide a healthy and fresh experience on top of the base game without breaking its charm and Natural. calamity A massive mod adding adds An abundance of new items, weapons, armor, biomes, city NPC and several hours of Lord Lord Lord Lord Lord. The Red Cloud History Thorium A massive way for Terraria. Terraria.
